Dr. Giorgia Mandrile

Dr. Giorgia Mandrile is a medical geneticist at the San Luigi Gonzaga Hospital (Orbassano – Italy). She trained in University of Torino and in her PhD studied primary hyperoxalurias genetics. She is involved in basic and clinical research on PH, mainly focused on genotype-phenotype correlations and PH epidemiology. She is also involved in several advisory boards for PH. Currently, she is the Italian section of the European Primary Hyperoxaluria online database.
