

Dr. Shabbir Moochhala

Dr Moochhala is an adult nephrologist at the Royal Free Hospital in London. He trained in Edinburgh and Newcastle upon Tyne, and has a special interest in renal physiology. His PhD examined pyrophosphate transport physiology in the kidney. He runs the UK's largest metabolic kidney stone clinical service at the Royal Free Hospital, and sees many adult patients with all forms of hyperoxaluria from across the UK and internationally. Shabbir contributes at international level to kidney research and education. He is Principal Investigator for four international clinical trials, and is national chair of the RADAR Hyperoxaluria Rare Disease Group. He founded and is chair of the NHS Rare Disease Collaborative Network in hyperoxaluria, and is setting up a national specialist multidisciplinary team for patients with hyperoxaluria, funded by the National Health Service.
